

Melissa de la Peña

As the Regional Manager for the Burbank to Los Angeles to Anaheim corridor of the 800-mile statewide California High Speed Rail project, Melissa de la Peña is responsible for the overall management of a multi-disciplinary consultant team consisting of several consulting firms responsible for the planning, public outreach, conceptual and preliminary design, and the preparation of required environmental documentation. She is part of the Rail Delivery Partner Team through Cordoba Corporation, supporting the California High-Speed Rail project. Melissa brings over 20 years of experience in transportation engineering and management of large infrastructure projects throughout Southern California and for local municipalities throughout the region.
